FLOOR PLAN

With its narrow, high-ceilinged windows and wooden roof construction, the Transformatorhuis is a space as intimate as it is impressive.

In daylight, this beautiful space serves as a special exhibition location, but with the shutters closed or at night, you can also throw a smashing party for up to 800 guests.

Anything is possible in this multifunctional space: a dinner with round tables, a fashion show with a long catwalk, a party with dazzling decor and art installations. Nothing is too crazy here.

The space is also high and practically laid out, which makes it extremely suitable for product presentations of large objects. In combination with the Gashouder, the Transformatorhuis can also serve as a special break-out area.

INTERNET

Throughout the park and in our buildings we offer a free basic wifi network (Westergas Free Wifi). Of course we also provide customised internet for events. This price is available on request.

SUSTAINABILITY

Westergas aims to be fully climate-neutral by 2025. LED lighting in the Transformatorhuis, for example, will reduce energy consumption by 45%. Want to know more? Check www.westergas.nl.

ACCESSIBILITY

Westergas is located very centrally and is easy to reach by car or public transport. The location is situated in the Westerpark, a car-free environment. You can park at Q-Park Westergasfabriek. Low-cost value cards are available through Westergas.

Prices include full AV, final cleaning and administration costs and exclude consumption costs (e.g. electricity and gas), location manager and 21% VAT.

ROOFLOAD

The Transformerhuis is set up in such a way that each event can supplement the set as desired in addition to the basis as described above. The 4 hall trusses can carry an extra weight of 600kg.

ADDITIONAL TECHNIQUE AND CATERING

For supplements to the basic set, we will be happy to help you make a tailor-made offer. For this purpose, we cooperate with experienced partners.

RIGGING

If extra rigging is needed, we will have it checked and installed by our in-house rigger. There are costs associated with the extra rigging points.
