## NICE TO MEET YA!

We are Hete Peper. A creative caterer with a bold and distinctive taste. Hete Peper's team consists of crazy professionals, event fanatics and go-getters.

A bunch of bright minds with a shared love of food and experience. For excelling and rebelling. For creating and for doing.

WANT TO KNOW  
WHAT GETS US HIGH?

LET'S TAKE A TRIP.

The chefs, the creatives and the event heroes; together we form the culinary director of your event. We tell stories with food and serve messages on your plate... Sometimes spicy, always stimulating.

## **OUR PHILOSOPHY**

We believe that food is more than a meal; it's a story. The real trick is to tell that story well. Creative, challenging, exciting.

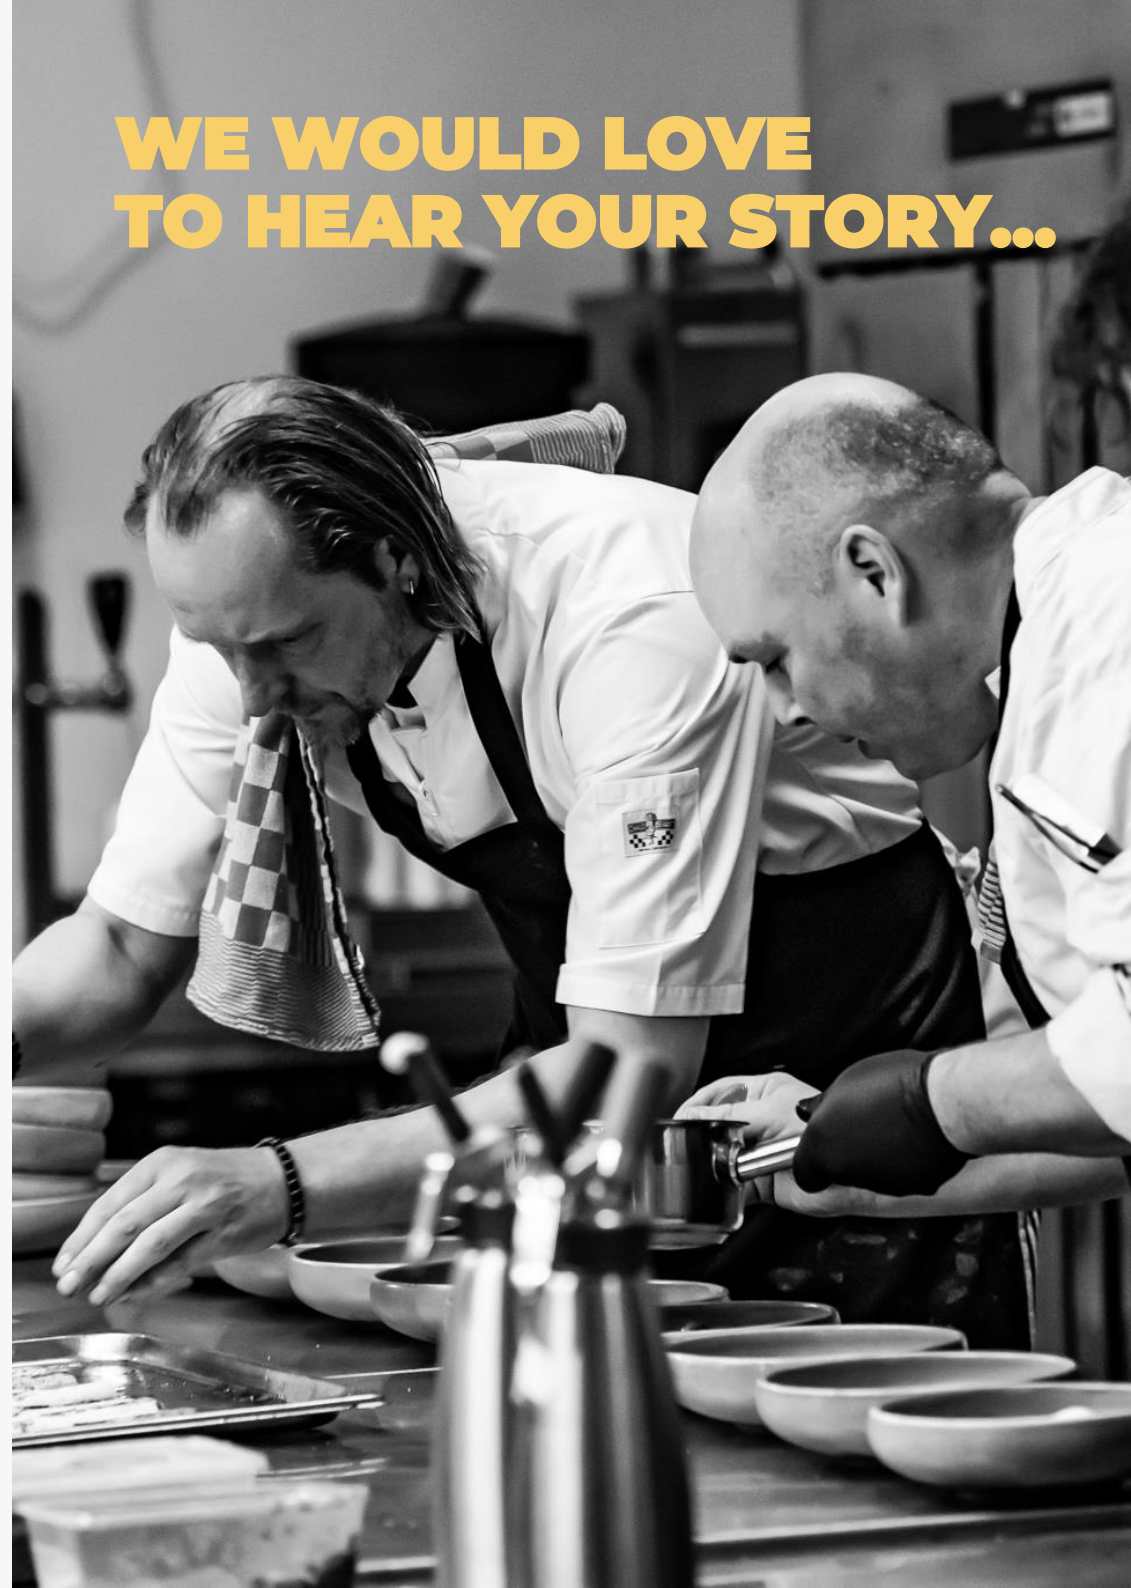

## **WHY A STORY?**

A conversational story takes you out of your comfort zone. Makes you think. And ultimately creates an experience that connects everyone.

## **HOW DO WE DO THAT?**

We're pushing boundaries and love to pioneer. That's why we like to mix ingredients from tech, fashion, art and science. Every bite feeds your imagination. Every sip inspires.

## INCURABLE CURIOSITY

We can't help it, it's in our DNA! It drives our creativity and innovation. We push limits and we love to pioneer, discover and create. But it also means we show honest interest in each other and listen to people with attention. What does your event taste like? What do you find exciting food? What is happening in your world? We want to know everything, that's how we empathize. And that's how we know how to tell your story in the best way possible.

## THE WAY TO SUSTAINABILITY

Mother Nature is our main supplier. If we take good care of her, she provides the most beautiful and tasty ingredients. Better than anyone, we know how much care and energy we put into our dishes. That's why we don't waste food and limit our use of raw materials.

Furthermore, we believe that sustainability encompasses more than 'nature'. It includes people, our actions and beliefs. For us, sustainability means doing business in a way that balances people, the environment and the economy (people, planet, profit). So that we take good care of today's needs without depleting tomorrow's earth!

# PSST.. CURIOUS WHAT YOUR CULINARY STORY LOOKS LIKE?

We'd love to take a seat in the director's chair, to design your one-of-a-kind menu. We don't have price packages, but we do create customized cost calculations faster than light!

## WHAT WE DO BEST

*The culinary directors of your event...* What does that even mean? Simple. Like real directors, we're good at telling stories. We immerse ourselves in your message or theme, and translate it into a creative, culinary menu. A story to be eaten! Sometimes spicy, always stimulating.
